My dear Allen:

One of my constituents, who does a great deal for me off and on by way of securing work for unemployed constituents, has written me a number of times about what he feels we should be doing in organized labor. He now comes through with a clear suggestion which I am passing along to you because I can't help feeling that we Republicans most of all are missing our chance and our opportunity when we do not find ways into the hearts and minds of those who work with their hands in this country.

I have been hoping to see you and your good wife for all these months - without any luck. I am sure you agree with me, if we were all triplets we would be doing a better job or at least cover more than we want to do.

My best to you now, as always,

Sincerely,

My dear Mrs. Bolton:- This follow-up letter is written in order to further explain my recent hasty communication regarding General Zukhov, Eisenhauer and the present paralyzing General Strike in France.

It has always been my belief that Zukhov has been and is the man who wields the greatest power and guides the destiny of Russia. President Eisenhauer, I believe, is in a very unique position in that he had occasion to make the personal acquaintance of Zukhov. Perhaps a meeting of the minds of these two men could result in a contract for world peace?

The primary purpose of world Communism in its effort to destroy our way of life is to gain control of organized labor unions and especially those in the transportation field and then use the all destructive weapon of the General Strike. This has been their goal since the turn of the century.

Thirteen years ago I had the assignment to write the Labor Day message of the

STAT

At that time I foresaw and warned against the trend then present in the French Confederation of Labor. This same paid message was used for the following four years on Labor Day. It was a harbinger of things to come. As of this week I have been proven a good prophet.

Our Intelligence ( C. I. A. ) should establish a friendly liaison organization

throughout the organized labor movement and on a local union level. Informational releases on Communist methods of infiltration and operational tactics should be given to the labor press of the country. Speakers should be provided to State and National Conventions with the sole purpose of keeping the movement familiar with current " Commy " practices.

I have no argument with present C. I. A. demands for a scholastic degree but I do know that many organized union mechanics who carry cards literally and also figuratively " in their hearts " possess the minds (I.Q.), allegiance and muscle to prevent, if they are kept informed, of any betrayal of our way of life and any future repetition in this country of the fall of France or should I say with moderation of what has befallen France? Something should and must be done on this score for the preservation of this grand old country.

Warm personal regards from us both and may God be with you in your new position of national and international trust.
